Bor-Shing Lin received his B.S. degree in Electrical Engineering from National Cheng Kung University, Taiwan, in 1997 and his M.S. and Ph.D. degrees in Electrical Engineering from National Taiwan University, Taiwan, in 1999 and 2006, respectively. He is currently the Professor of Department of Computer Science and Information Engineering, National Taipei University, Taiwan. He is also currently the Director of Computer and Information Center, National Taipei University, Taiwan. His research interests are in the areas of smart medicine, embedded system, wearable system, biomedical signal processing, biomedical image processing, and portable biomedical electronic system design.

A large, faint watermark of the National Taipei University (NTPU) logo is visible in the background. It features a stylized bird or leaf shape composed of several overlapping curved segments in light blue, green, yellow, and red, with the letters 'NTPU' in a large, light grey font centered below it.
